

# Plastic packages

Thank you  
for sorting  
your waste!

- ✓ It is clean enough if there is no odour nuisance:  
Rinse or wipe clean empty packages, if necessary.
- ✓ Don't put different plastic packages inside each other.
- ✓ Detach caps and lids - it makes the processing of materials easier.

Sorting problems? [hsy.fi/en/wasteguide](https://hsy.fi/en/wasteguide)

# Give plastic a new life

**No thanks:** Items other than packages such as toys, kitchen utensils. Packages with residues of hazardous substances.
